Cruise Round The UK and See St Petersburg With Fred. Olsen!

Fred. Olsen has a cruise to the Baltic aboard *Boudicca* in May with an intriguing itinerary.

Departing from Liverpool on 21st May 2010 for 14 nights, the cruise - D1009 - is one of a new season from this port for the cruise ship. The route taken from Liverpool is up the north west coast of England and all around Scotland, then across the North Sea to Denmark, where the first port of call is Skagen. Next is the Swedish port of Ystad, then, after a day at sea, *Boudicca* reaches the architectural gem that is St Petersburg, a treasury of fine art and amazing buildings. There is an overnight stay, to allow time to explore this stunning city, before *Boudicca* moves on to Tallinn, the picturesque Estonian capital.

On the return voyage, she visits Warnemunde for excursions to Berlin, then transits the Kiel Canal, calling at Zeebrugge for visits to the lovely town of Bruges. This is where *Boudicca* completes her cruise round Britain, as she travels along the south coast, around the tip of Cornwall and travels north through the Irish Sea, past the western coast of Wales, until she docks back in Liverpool.

The cruise offers a unique opportunity to enjoy the marvellous Baltic and European ports and also to see much of the varied and beautiful British coastline en route.

Prices for this cruise start from £1,129 per person, based on two sharing an inside twin cabin. The price includes all meals and entertainment on board and port taxes.
